

FLEECE BLANKET

INSTRUCTIONS

1

Prep fleece fabric: Cut two complimentary colored fleece fabric pieces together and cut into approximately 24" x 30" sizes.

2

Lay out, on table, two pre-matched pieces of fleece keeping them together. Right sides facing out.

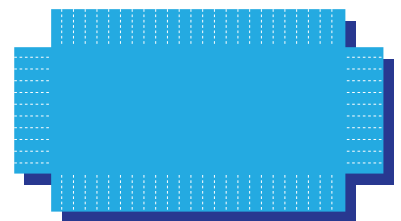

3

Cut out corners, 2" each side. Be sure to cut through both pieces of fabric.

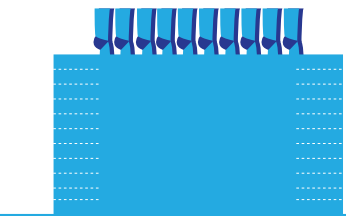

4

Cut strips 1" x 2" along the entire blanket, again cutting through both pieces of fleece.

5

Keeping the strips lined up, tie the strip from the top fleece to the strip from the bottom fleece.

6

Tie all strips and you're done!
